DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 01/06/05 have been fully considered but they are not persuasive. The following rejections follow.

Claim Rejections - 35 USC § 103

2. Claims 1, 3, 4, 6 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suttle et al. in view of Wood et al.

The Applicant is referred to the first Office action.

The Applicant has argued that in the claimed invention, all the cards are dealt face up and the participants are not required to take cards in their hands at all. This protects against illegal manipulation of the cards, and the possibility of fraudulent operations with the cards. The Examiner takes the position that the Applicant's arguments are directed to game rules or method of play that is not recited in the claims. Note, there is no step in the claims that participants are not required to take cards in their hands.

The Applicant has also argued that "a fundamental necessity to use more than one pack of cards, which introduces a greater degree of uncertainty into the allocation of game combinations of cards dealt face up and creates a condition where each game cycle is played using a different set of cards (because the played cards of a previous game cycle are discarded, i.e. excluded from the next game cycle)". The Examiner takes the position that it is well known in the poker art that after each game cycle (each

round of play), a different set of cards are dealt from the deck to form the players' hands and the dealer's hand, to start another game cycle or another round of play.

3. Claims 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Suttle et al. in view of Wood et al. as applied to claim 1 above, and further in view of Wirth.

The Applicant is referred to the first Office action.

Allowable Subject Matter

4. Claim 7 is allowed.

5. Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
